

Flat Screen Protective Films available from Photodon.com

Film Type	Surface Type	Film Code	Film Thickness*	Touch Screen	Tablet	Surface Hardness	Glare Reduction	Transmittance	Substrate	Adhesive	
Anti-Glare	Matte	MXS	0.009	no	no	3H	65%	> 88%	PET	Silicone	
		Spec Sheet	PDF - File	AntiScratch						Entire back	
		Roll	645mm (25 3/8") x 50 meters								
		Sheet	Custom Cut Up to width of roll 25 3/8" (645mm) x up 48" (1210mm)								
<i>MXS - Recommended for most screens larger than 19", the film being thicker is easier to handle and apply. Introduces some visual noise / pixeling.</i>											
<i>Provides the most impact protection.</i>											
Anti-Glare	Matte	MXT	0.006	yes	yes	3H	65%	> 90%	PET	Silicone	
		Spec Sheet	PDF - File	AntiScratch						Entire back	
		Roll	645mm x 200 or 250 meters (25 3/8" x 656' or 820')								
		Sheet	Custom Cut Up to width of roll 25 3/8" (645mm) x up 48" (1210mm)								
<i>MXT - Recommended for use on touch-screens or glass front screens. Introduces some visual noise / pixeling, but slightly less than the MXS film.</i>											
HD Anti-Glare smudge resistant	Light Matte	MXH	0.006	yes	yes	3H	25%	>94%	PET	Silicone	
		Spec Sheet	PDF - File	AntiScratch						Entire back	
		Roll	675mm x 200 or 250 meters (26 9/16" x 656' or 820')								
		Sheet	Custom Cut Up to width of roll 26 9/16" (675mm) x up 48" (1210mm)								
<i>MXH - Recommended for use on touch-screens, screens with glass fronts. Has the highest image quality of all the ANTI-GLARE products. Introduces least amount of visual noise / pixeling. Also has fingerprint smudge resistance hard coat layer.</i>											
Crystal Clear <i>Rated #1 by Gotabemobile</i>	Glossy	MXA	0.006	yes	yes **	>3H	no	>95%	PET	Silicone	
		Spec Sheet	PDF - File	AntiScratch						Entire back	
		Roll	614mm x 200 or 250 meters (24 3/16" x 656' or 820')								
		Sheet	Custom Cut Up to width of roll 24 3/16" (614mm) x up 48" (1210mm)								
<i>MXA - Recommended for maximum screen clarity, creates a very crisp sharp image. This film uses Anti-Reflect Technology. We have noticed <u>improved screen image with whiter whites.</u></i>											

* Without pre-installation layers

** Most Effective
